

## Helpful tools for planning your wedding

### BOOKING PLAN

It is a wise bride and groom who start with the bookings now.

There are quite a few things that must co-ordinate,

1. Church or other venue.
2. Celebrant or other qualified person.
3. Venue.
4. Photographer.

Unfortunately any of these 4 can be booked out over twelve (12) month in advance.

Also consider the time of year you are marrying in regard to your honeymoon. Canada is very cold during Christmas, Melbourne is beautiful in spring and the islands have special cruises during the year. So bear in mind the climate of your honeymoon choice.

At least six (6) months before your wedding consider your guest list so you can talk to stationery people about timing schedules for invitation, menus, place cards, table lists, Thank You cards etc.

Arrange to see bridal gowns and bridesmaids dresses so you can make a decision as to colour, shape and sizes and schedule for fittings for yourself and your bridal party.
